THE LADY'S ALBUM OF FANCY WORK FOR 1850

Consisting of Novel, Elegant, and Useful Designs in  
Knitting, Netting, Crochet, Braiding, and Embroidery  
with Clear and Explicit Directions for Working the Patterns

ADDRESS

Encouraged by the kind welcome which greeted their former efforts to provide a volume worthy the attention of the ladies of the United Kingdom, the Publishers of the *\_Lady's Album of Fancy-Work\_* have issued a similar production for 1850. Solicitous to preserve the favourable consideration so flatteringly accorded, every care has been taken to render the *\_Lady's Album of fancy-Work\_* for 1850 as attractive and useful as possible; no expense has been spared in its artistic illustration, letterpress, and embellishment; and it will be found an elegant ornament in the drawing-room as well as a useful ally at the work-table. The patterns and designs are of the most useful and varied character: specimens are given of each style of work recently invented;

and no article either of ornament or use at present in fashion is omitted.

The exercise of the needle has been from time immemorial a favourite occupation with the females of every country; and the allusions to the subject from cotemporary historians and poets evince that this feminine pursuit was regarded with approval and respect. The invention of embroidery is ascribed to the Phrygians; and we also learn from ancient authors, that the Sidonians particularly excelled in this beautiful art of decorative needlework; it must have also made considerable progress in the country soon after the Norman Conquest, from the accounts that are recorded of the robes embroidered in gold and silver, generally worn by persons of rank at that period. The Bayeux Tapestry also remains to us as a lasting trophy of the skill and industry of Queen Matilda and the ladies of her court, and is not more interesting as a historical record than as a specimen of the needlework of the mediaeval age. The introduction of knitting into this country is comparatively of modern date; so late as the middle of the sixteenth century. The invention of the art is usually ascribed to the Spaniards; though the Scotch, with some appearance of justice, assert their claims as its originators. Like all inventions, knitting has undergone wonderful improvements since it was first simply used for stocking-making: and the value attached to stockings so made may be judged from the fact, that a pair were deemed a fitting present from one sovereign to another. A pair of knitted hose was amongst the gifts received by that lover of finery, Queen Elizabeth; but no record remains to shew if these were preserved with the three thousand robes which were found after her death in the wardrobe of

England's Maiden Queen.

The love for domestic occupations, which is so admirable a trait in the character of our countrywomen, has often been a subject of gratulation; and that female ingenuity and skill may continue to be employed in embellishing the drawing-room, rather than in directing the political intrigues of the \_salon\_, must be desired by all interested in the preservation of those domestic attributes which give so pleasing a charm to home, and secure the comfort of all around.

The taste which her Majesty Queen Victoria evinces for feminine pursuits and occupations has naturally exercised considerable influence in preserving habits of industry amongst her female subjects; and to her Majesty's example, and that of the amiable Queen Dowager, may be ascribed that the labours of the English embroideress are now justly appreciated, and her work esteemed as in no respects inferior to the produce of foreign ingenuity.

In expressing their thanks for the patronage extended to the \_Lady's Album of Fancy-Work\_ for 1849, the Publishers take leave to state that the present Volume contains designs and patterns for various articles in Embroidery, Braid-Work, Crochet, Knitting, Netting, Ribbon-Work, Scagliola, and Indian Ornamental Work; all of which are executed and engraved in a style of unusual superiority. Each pattern is accompanied with plain and explicit directions; and it is hoped that their execution will afford many hours of pleasurable employment to the fair and

industrious votress of the needle.

#### EXPLANATION OF THE VARIOUS TERMS USED IN CROCHET.

CHAIN-STITCH OPEN CROCHET.--This consists of five or any uneven number of loops attached by a plain stitch to every third stitch of the foundation, and in the succeeding rows to the centre loop of the chain of previous row.

THREE CHAIN CROCHET.--Work a chain of three loops as in chain-stitch open crochet.

DOUBLE CROCHET.--Work as follows: having made a chain, pass the needle through the first loop on the chain, draw the cotton through the loop, there will now be two loops on the needle, through these draw the cotton.

SINGLE CROCHET.--Insert the needle in the loops, and draw the cotton through this loop and that on the needle.

RIBBED CROCHET.--This is worked in a similar manner to double crochet, only that the under loop of the previous row is taken, and it is done in rows to and fro.

LONG STITCH.--Twist the cotton round the needle, pass it through the loop, draw the cotton through the first two loops on the needle, then catch the cotton again and draw it through the next two loops; there will be one loop left on the needle.

DOUBLE LONG STITCH.--This resembles long stitch, excepting that the cotton is twisted twice round the needle.

TREBLE LONG STITCH.--Twist the cotton three times round the needle.

SINGLE OPEN CROCHET.--This is a succession of long stitches, with a chain-stitch between each, missing one stitch of the foundation; in the succeeding rows the long stitch is worked between the two long stitches of the preceding rows.

DOUBLE OPEN CROCHET.--This consists of two long stitches, then two chain-stitches; or it may be varied by making one long stitch, two chain-stitches, missing the same number of stitches in foundation as there are chain-stitches.

TREBLE OPEN CROCHET.--Work three long stitches, then three chain, missing three of the foundation.

VANDYKE OPEN CROCHET.--Work three long stitches into one of the foundation, make one chain-stitch, miss three of the foundation; repeat.

In the next and following rows the long stitches are worked in the chain-stitch.

#### GENERAL INSTRUCTIONS FOR EMBROIDERY.

The various elegant designs for handkerchiefs, jupons, shirts, &c. are worked in raised satin stitch. The material used is French working-cotton; numbers 100 or 120 will be found suitable for most purposes, but this must be regulated by the quality of the cambric.

Handkerchiefs embroidered in colours continue to be extremely fashionable; the patterns in the \_Lady's Album\_ are of the most novel description, and quite suitable for this style of work. The names and initial letters are worked in satin-stitch, sewing over the lines.

EMBROIDERY.

1. FRONT FOR LADY'S CABINET.

\_Materials--Black satin; six shades of crimson, five shades of yellow, three shades of puce, two shades of scarlet, three shades of yellow-greens, three shades of blue-greens, and two shades of brown embroidery silk, or of chenille\_.

Draw the design upon the satin, frame the work, and work in embroidery-stitch. The rose-leaves with the yellow-greens, the leaves of thistles with the blue-greens, the stems with brown, the thistle and bud of thistle with the shades of puce, working the centre of the former with the shades of scarlet.

Work the rose on the right hand of thistle with the four darkest shades of crimson, and that on the left and the buds with the four lightest

shades. Work the remaining rose with the yellow shades. Work the designs for corners in a similar manner, shading according to the taste of the worker.

The above design is adapted for the front or door of a small rosewood or an inlaid ebony cabinet, suitable for a lady's boudoir or dressing-room.

It looks well if worked upon white instead of black satin; and if the former is used, it is advisable to have plate-glass as a protection to the needlework.

With shaded green make a chain of nine stitches; unite and work ten rounds in close double crochet, increasing in every stitch in the first round, in every alternate in the second, and in the same stitch in each of the succeeding rounds.--

\_11th round\_. Work along stitch in each stitch, missing every ninth

stitch.--

\_12th round\_. 3 long, 3 chain, miss 2.--

Wrap four pieces of wire, the height of the basket, with green wool, and attach to the inside at regular distances. Prepare a piece of wire, in like manner, for the handle. Work the handle as follows:

With shaded green make a chain the length required.--

unite, and work 1 single, 3 long, 1 single; repeat three times, and draw the bud through this, leaving a piece for the stem, which must be wrapped with green wool. Forget-me-not--With blue make a chain of five, unite, and into this ring work 1 single, 2 long, 1 single; repeat four times.

Work the other side of leaf to correspond. Work down the chain to the fifteenth stitch; from this work a chain of 11 stitches, and work a leaf from the directions already given. Work a third leaf on the reverse side of stem. Seven geraniums and three buds will be required, and fifteen forget-me-nots and seven sprays of leaves will also be needed.

Arrange the flowers and leaves on the basket as seen in illustration,

and sew on the handle.

## CROCHET

### 29. RAISED CROCHET COLLAR.

\_Materials--Raworth's crochet-thread No. 70, and a middle-sized  
tambour-needle\_.

Cut out in paper the shape of the collar you wish to make, but half an  
inch larger all round.

Edging for the Collar.--Make a chain about one-third longer than the outside of your paper pattern, turn and work the first row along the chain in long crochet, making a chain stitch after each long one, and missing the corresponding loop of the chain.--

2d row. Turn again, keeping the work on the right side; make 3 chain stitches, and along the opposite edge of the long stitches, (a), work 10 plain stitches, and in the tenth a chain of 9 stitches; turn, and along the vein just made work 8 stitches in double crochet, and 1 plain stitch in the loop from which the chain springs; repeat from (a) throughout the row. Break off your cotton, and begin the next row and all the following at the other end.--

3d row. (b) Work 9 plain stitches, then work round the vein in long stitches, making an additional stitch at the top; repeat from (b).--

4th row. (c) Work 8 plain stitches, then round the leaf in long stitches, making 2 additional stitches in the top loop; repeat from (c).--

5th row. (d) Work 7 plain stitches, then, in double crochet, making round the leaf an additional stitch in the top loop; repeat from (d).--

\_6th row. (e)\_ Work 6 plain stitches, and round the leaf in double  
crochet, without making a stitch at the top; repeat from \_(e)\_.

To complete your edging, work a row of double crochet on the other edge  
of the row of long stitches.

\_Flowers for the Collar\_--

Make a chain of 6 stitches; close it by  
taking a plain stitch in the first of the chain; work in every loop of  
this small ring 2 long stitches, with a chain-stitch between each of the  
long ones. In finishing the round, make a stitch to complete the number  
of twenty-five loops; then \_(a)\_ work 5 plain stitches, and in the fifth  
make a chain of 7 stitches; turn, work 6 stitches in double crochet  
along the chain, and 1 plain in the loop from which the chain springs;  
repeat from \_(a)\_ four times. You have then three veins; work round them  
as directed for the leaves of the edging; after the second row of double  
crochet break off your cotton. According to the size of the collar, five  
or six flowers will be sufficient, if you make also the trifoliums.

\_Trifoliums\_--Make a chain of 18 stitches; turn, and work along the  
chain 3 plain stitches, a vein of 7 stitches; 6 plain, a vein of 8  
stitches; 6 more plain stitches, another vein of 7; 3 plain stitches,  
and break off the cotton. Begin at the first end, and work the two rows  
of long stitches exactly as directed for the leaves of the edging; at

the end of the two following rows, which are in double crochet, round the leaves, instead of breaking off the cotton, work in double crochet from the third leaflet to the first; thus connecting the work in one single leaf with three divisions. Having prepared the required number of flowers and leaves, baste your edging on the paper pattern, so that the whole of the leaves rest on the paper; then work a chain rather loose, to connect the two ends of the collar on the neck side; turn, and work along that chain a row of double crochet. Baste this narrow band carefully half an inch from the edge of the paper; then begin a row of double crochet inside the collar, throwing, at even distances, a slanting chain from the edging to the neckband, working back each time along that chain in long or double crochet; repeat the same operation from the neckband to the edging, so as to divide the whole middle of the collar in a certain number of diamonds; baste the diamonds to the paper, place alternately in each a flower or a trifolium, and, with a sewing-needle and fine French embroidery cotton, connect the flowers and leaves to the inside edges of the diamonds in long twisted stitches, rows of button-hole stitches, or any kind of lace-work. After being washed and starched, the collar ought to be pressed on the wrong side with the head of a round nail warmed in the fire.

SCAGLIOLA WORK

### 30. A CHESS-BOARD.

This description of drawing is called Scagliola work, or a Mischia (mixed workmanship); it was first invented by Guido Tassi, and the art was afterwards improved and perfected by Henry Hugford, a monk, of Vallambrosa. It was first used to counterfeit marbles; and the altar of St. Antonio, in the church of St. Nicolo, at Carpi, is still preserved as a monument of extraordinary skill and beauty. It consists of two columns, representing porphyry, and adorned with a pallium, embroidered as it were with lace; while it is ornamented in the margin with medals bearing beautiful figures.

The dicromi, or yellow figures on a black ground, in imitation of the Etruscan vases, are now most admired in scagliola work; and as the art is one easy of attainment, we shall describe it. Having procured a piece of sycamore of the desired size and shape, you draw upon it with a pencil, first the centre piece, and afterwards the border; you then trace over the pencil marks with Indian-ink and a fine crow-quill, and next fill in the ground with Indian-ink and a camel's-hair brush. After two or three days, varnish with the best picture-varnish. If sycamore cannot be procured, deal will answer the purpose, covered with good cream-coloured drawing-paper.

## EMBROIDERY

### 32. GREEK CAP.

Materials required will be a quarter of a yard of common bed-ticken, but of a good broad stripe; some fine gold thread, also some silver thread, and various coloured silks.

Measure the size round the head, and cut a piece of ticken to the length, and of the depth of seven inches; work on the black stripes in herring-bone; stitch a row of gold and silver cord, alternate; and on the intermediate white stripes work, according to fancy, different coloured silks, also in herring-bone stitch, only rather larger, to fill up the stripe. Cut a piece of ticken round, and of about 2-1/2 inches in diameter; work it in the same manner, and mount it on a circular piece of card; full the headpiece round the small crown, line it with some bright-coloured Persian, and trim it with a gilt band, and gilt tassel to match.

This cap is so simple a work, that it hardly allows any one to suppose it will look as pretty as it certainly does.

CROCHET.

35. UNDER-SLEEVE.

\_Material--Raworth's crochet-thread No\_. 70.

\_Band of insertion for the Wrist\_--19 c s, unite d c round this ring eighteen times, which will cover about three-quarters of the ring. Turn the work wrong side up. 6 c s, miss 2, s c into third stitch; repeat this five times more. Turn 1 d c, 5 l s, 1 d c, into every space formed by 6 c s, d c round the remaining part of the ring six times; fasten off, leaving one end about three inches long. Turn on the wrong side. Begin on the third stitch of third scallop of last flower. 12 c s, s c into fifth stitch of next scallop, forming a loop over the two centre scallops. Turn. D c round this loop eighteen times. Turn. \* 6 c s, miss

2, s c into third stitch; repeat from \* five times more. Turn. 1 d c, 5 l s, 1 d c into every space formed by 6 c s; fasten off, leaving one end as in last flower. Work fifteen of these flowers, thread a fine needle with the ends left, and make a few stitches on the wrong side to secure them. The band between the two puffings is to be worked exactly the same; but there must be eighteen flowers instead of fifteen. Commence the fulness on the band for the wrist on the first scallop, at the edge, 5 c s (working in the end of the thread), s c into the centre of next scallop, \* 6 c s, s c into the first scallop of next flower. 5 c s, s c into next scallop; repeat from \* to the end of the band.

2d row. Commence on the first loop of 5 c s in last row, \* 8 c s, d c round the next loop, 8 c s, d c round the same loop; repeat from \* to the end of the row.--3d row. Commence on first loop of 8 c s in last row, 9 c s, d c into next loop, 9 c s, d c into next loop; repeat to the end of the row.--4th row. Commence on the same loop of 8 c s, as the last row was begun on 10 c s, d c round the centre of first loop in last row, \* 9 c s, d c round the next loop; repeat from \* to the end of the row. After the d c stitch round the last loop in this row, make 5 c s, and draw the end of the cotton through. These 5 c s must be worked at the end of every alternate row, in order to keep the ends of the fulness even. Work four more rows like the two last, making in all six rows, then seven rows, having 10 c s in each loop, every alternate row of which is begun in the same loop as the preceding row, having 12 c s in the first loop. Then work six more rows like the former six, having 9 c s in each loop. This will make nineteen rows of loops: fasten off. Work a fulness on the upper band of insertion in exactly the same manner, and

gather it in at the top next the sleeve in this way: commence on the first loop 2 c s, take the next loop on the needle, and d c round it once, 2 c s, \* d c round next loop once, 2 c s; repeat from \* to end of row. In the next row, work 1 l s into every stitch of last row.

To unite the fulness on the wristband to the upper band of insertion, turn them both on the wrong side, and hold them as if they were to be sewn together, the insertion being at the back. Take the first loop, and the centre stitch of the first scallop, on the needle, and work 1 s c to unite them, 3 c s, s c the next loop and centre stitch of the next scallop, o 4 c s, s c the next loop and centre of first scallop in next flounce together, 3 c s, s c next loop and next scallop, o \* 4 c s, s c next loop and next scallop, 2 c s; take the next loop on the needle \_without\_ the scallop, and s c once round it, 2 c s, s c the next loop and next scallop together; repeat from \* to end of row, except on the two last flowers, which must be worked as from o to o.

\_For the Edging on the Wristband\_--Commence on the first scallop of the insertion, \* 5 c s, s c into next scallop, 6 c s, s c into next scallop; repeat from \* to end of row.

\_2d row\_. 10 c s, 1 l s, into first loop of last row, \* 3 c s, 1 l s into same loop, 3 c s, 1 l s into next loop; repeat from \* to end of row.--

\_3d row\_. 7 c s, d c round every loop of last row.--

\_4th row\_. 4 c s, 1 l s into every loop of last row.--

\_5th row\_. Begin on the first loop of third row, 6 c s, 5 l s into first loop of last row, 4 c s, d c into next loop, \* 4 c s, 5 l s into next loop, 4 c s, d c into next loop; repeat from \*.--

\_6th row\_. 4 d c stitches round first loop of 6 c s in last row, 8 c s, \* miss the 5 l s, d c four times round the next loop of 4 c s, 4 d c round the next loop, 8 c s; repeat from \*.--

\_7th row\_. Begin on first loop of 8 in last row, 7 c s, s c \_between\_ the two loops of 4 d c each, \* 7 c s, s c round the centre of 8 c s in last row, 10 c s, d c round the same loop, 7 c s, s c between the two loops of 4 d c; repeat from \* to end of row. This finishes the edging.

D c round the ends of the puffings, taking in the ends left on finishing the rows. Make a chain of 15 stitches at the ends of the two bands of insertions, and s c into the edge for a small loop. D c round these twenty-four times, and sew a small pearl button on the other ends of the bands. The insertion may have a narrow satin ribbon run through the open holes, finished by a small bow at the upper part of the sleeve.

Sew the edges of the leaves and flowers nicely, to prevent their turning up; then, with a sewing-needle and fine cotton, unite the flowers, leaves, and borders, by passing the needle from one part of a leaf or flower to another four or five times; then pass the needle under the bars formed six or eight times, according to the length of the bar; pass the needle to another part, and continue to connect the work in this manner throughout the collar.

Tack the edges of the roses together, and the ends of the stems to the adjoining wreath; then remove the paper, and lay the bordering upon the edge of the scarf or veil, which should be of Brussels net. ## NETTING

### 68. THE HELEN CAP.

\_Materials--Scarlet floss silk, or five shades of scarlet Berlin wool; meshes Nos. 3 and 6; cornucopia gauge, and a flat mesh, an inch in width\_.

The cap is worked in honeycomb netting, and the borders and rosette in plain netting. With the darkest shade make a foundation of 56 stitches on mesh No. 3, net 2 rows with each shade, increasing a stitch at the end of each row; leave one-half of the cap plain, and net a border in the following manner on the remaining loops and at the ends:--With the darkest shade net 4 loops in every loop on the flat mesh, increasing by making 6 loops in each of the three corner stitches; then on mesh No. 3, net 1 loop in each, and finish by netting a row with the next shade on the smallest mesh: this must be repeated at each side of the cap. For the second border, net 100 loops on the flat mesh on a foundation of wool, and finish to correspond with the first border. Two pieces netted in this manner are required, and they are arranged in festoons at the sides of the cap. Pass a cord the size required through the foundation-stitches, join it, and sew on a rosette made in the following manner:--With the darkest shade net 100 loops on mesh No. 3; then with the next shade net 2 rows at each side and at the ends; make this into a rosette with long ends, as in illustration.

This elegant and becoming head-dress derives its name from the beautiful sister-in-law of the Emperor of Russia, the Grand Duchess Helen, who introduced this style of coiffure at St. Petersburg.

## INDIAN ORNAMENTAL WORK

### 69. SCREEN.

Beautiful cabinets, work-boxes, work-tables, fire-screens, &c., may be painted in imitation of ebony inlaid with ivory by the following means:--Let your screen be made of an elegant form, but merely of common white wood or deal, prepared as below.

Composition for the Surface of Wood--Steep one ounce of glue in a pint of cold water all night; throw off the water in the morning. Take six ounces of finest white lead in powder, mix it by degrees in a mortar, with about half a pint of cold water, till it is perfectly smooth, then place it, along with the glue, in a clean pan. Add half a pint more water; set it on the fire, stirring constantly till it boils.

Let it boil three minutes; take it off, and pour it into a stone jar, and continue to stir it occasionally till cold. When cold, but before it congeals, take a clean paint-brush, and paint your screen with the composition. When it is quite dry, rub it over with sand-paper, to make it quite smooth; then give it another coat of the white composition, repeating the rubbing with sand-paper as before. Repeat this same process five or six times, until you obtain a smooth, equal, white surface. When that is accomplished, dissolve the fourth of an ounce of isinglass in a quarter of a pint of water; when cold, but liquid, give

the screen a coat of it with a clean brush, and do not use the sand-paper after it.

To Ornament the Screen.--Lay a sheet of black tracing-paper on the screen, with the black side downwards; then place a pattern above it, with the right side uppermost; place a weight here and there, to prevent it slipping; then trace over the outline with a rather blunt stiletto.

On removing the paper, you will find the outline of the pattern transferred to the surface of the screen. Trace over the outline, and shade, in lines, with a fine camel's-hair pencil dipped in Newman's lamp-black; fill in with the same.

Varnish.--Place four ounces of rectified spirit of wine in a wide-mouthed bottle; add one ounce of gum sandarac, a quarter of an ounce of gum mastic, and a drachm of camphor, all in powder. Put a stopper in the bottle, set it near a fire, and shake it occasionally.

When all the gums are quite dissolved, add one ounce of oil of turpentine; then strain through muslin into another clean, dry wide-mouthed bottle. Let it stand a day or two before using.

Mode of Varnishing.--Take a large clean new varnish-brush, dip it into the bottle, and then cover over all your screen with it. When perfectly dry, give it another coat, and so on till it has had six coats; let it remain untouched for two days; rub it smooth with sand-paper; then give it two more coats of varnish, and repeat the rubbing, being careful to wait between each coat till the last is dry, and not to rub with

sand-paper sooner than two days after varnishing, and never give more than two coats of varnish in a day--one in the morning, another at night. When you think it looks clear and sufficiently thick, give it another coat without using the sand-paper after it; let it stand four days; then rub it all over with pounded rottenstone, and wipe it off with a wet cloth; after which take a little Florence oil and hair-powder, and polish with your hand.

\* \* \* \* \*

KNITTING

70. HEARTSEASE.

Materials--Split Berlin wool, and knitting-needles No. 20; cornucopia gauge.

Violet Petals--Cast on three stitches with a bright shade of violet; knit and pearl in alternate rows, making a stitch at the beginning of every row, until you have fourteen or sixteen stitches; then knit and pearl six rows alternately, without increase, and continue in knitted and pearled rows, decreasing one stitch at the beginning of each row, till six or eight stitches alone remain; these cast off in the plain row, taking the two last as one before you turn the last stitch over. Two petals like these are required.

Large Yellow Petal--Take a bright, though rather deep, shade of yellow wool, split; cast on three stitches, knit and pearl in alternate rows, increasing one stitch before and one after the middle stitch in the plain row, till you have fifteen or seventeen stitches; take a higher shade of yellow, and work six more alternate plain and pearled rows, still increasing in the middle, but decreasing one stitch at the beginning of every row; change your wool for a deep violet, and continue to knit in alternate plain and pearled rows, decreasing one stitch at the beginning of each row, till seven stitches only remain; these cast off, taking the two last as one.

Two smaller Petals--Exactly like the large one, but increased only to thirteen stitches. Sew a fine wire round each petal with split wool, tie

the five petals together with a bit of green.

\_Buds\_--Take eight or ten lengths of split wool, yellow and violet, place across a piece of wire, fold the wire, twist the ends, turn down the ends of wool, tie them round the wire, leaving out the length required for the bud (about a quarter of an inch); cover the stem with green wool, split; also the stem of the heartsease.

\_Leaves\_--Begin with a shade of green wool, split as for one of the yellow petals, but you have thirteen stitches; cast off three at the beginning of the two following rows, go on increasing again to thirteen; cast off three at each end, and make thus as many scallops as will look well--in general three or four on each side make a very good-sized leaf; after the last scallops, decrease one stitch at the beginning of every row, till the leaf comes to a point.

## RIBBON WORK

72. A NEW AND ELEGANT WORK FOR SOFA PILLOWS, ANTI-MACASSARS,  
CARD-BASKETS, &c.

We will describe how to make an anti-macassar:--

\_Take Penelope canvass, three quarters of a yard long, half a yard wide;  
a piece of crimson china ribbon; one piece of gold-colour, one of shaded  
lilac, and a rug-needle\_.

Prepare the canvass by cutting away every 2 alternate threads, and draw  
them out the whole length of the canvass; next cut away and draw them  
out with tweezers, every 2 alternate threads, the whole of the width of  
the canvass. Next thread the rug-needle with crimson ribbon, and sew  
over the first 2 threads of canvass the lengthway of the canvass; when  
at the end, pass the needle to the next 2 threads and sew them over,  
taking care to keep the ribbon flat as possible; when at the top, return

and cover the next two threads with the same coloured ribbon. This will make 3 stripes. Proceed the same with the gold-colour, 3 stripes; then the lilac, 3 stripes; then recommence with the crimson, and continue the same until you have the whole length finished. Next commence to sew over the same from side to side, which will form a chequered pattern, and has a rich effect. Finish round with a ruche of satin ribbon or fringe, crimson colour. If desired, can be worked with slight silk.

\* \* \* \* \*

CROCHET.

### 73. LADY'S SILK MITTEN.

\_Materials\_--10 \_pieces of fine black crochet silk\_; 2 \_bundles of No\_.

6 \_steel beads; Penelope crochet No\_. 3.

Make a chain of 84 stitches; work 1 row in plain-stitch crochet.--

\_2d row\_. 2 edge-stitches, 1 bead-stitch, 1 plain to the end of row.--

\_3d row\_. Plain.--

\_4th row\_. Same as 2d row.--

\_5th, 6th, and 7th rows\_. Plain.--

\_8th row\_. 4 plain, 4 bead to the end of row.--

\_9th, 10th, and 11th rows\_. As 8th row.--

\_13th, 14th, and 15th rows\_. Plain.--

\_16th row\_. 1 plain-stitch, 1 bead-stitch to the end of row.--

\_17th row\_. Plain.

This completes the band for the arm, which must be worked on one side, detaching the silk at the end of each row. Work 4 rows in chain-stitch open crochet, making 7 loops in each chain, and missing 4 stitches in working the first row, join and work in rounds; work 2 rounds, then divide the mit in half, and leave a space for the thumb; the silk must be detached at the end of the row. Work to the centre of the back of hand, make 3 chain-stitches, pass down a bead in making the next 3 chain-stitches, crochet to the centre stitch of chain of last row; then work 3 stitches, passing down a bead at each stitch, then 3 chain-stitches; work to the end of row. Work 6 rows, increasing the number of bead-stitches by commencing at the preceding chain-stitch;

then work 6 rows, decreasing as seen in illustration; the last 3 of these must be worked in rounds instead of rows; work \_3\_ rounds in chain-stitches of 7 as before, then a round of chain-loops in each chain. Work one-half plain for the inner part of the hand, then 1 bead, 1 plain. Next round plain. Work 3 rows thus on the back of the hand; 3 bead-stitches, 3 plain stitches. Next round plain; then 1 bead-stitch, 1 plain as before, and finish with a plain round. Now work the thumb as follows:--Work a chain of 7, missing every third stitch; repeat three times, then work 5 rounds, decreasing in each round by passing the loop through the centre stitches of two of the chains; work 3 rounds without decreasing, and finish with 3 rounds of close double crochet, making every alternate stitch of the centre round a bead-stitch. Work a loop on the band, and fasten with a button.

Cut the canvass into strips 3 inches in width, and the length required; sew 14 lengths of cord upon the canvass, leaving 2 threads between each cord; the cord will cover a space of 2 threads. 2d round. D c into first space, \* 5 c s, d c into next space; repeat from \* into every space, finish with 5 c s, s c into first d c of the round.--

3d round. 5 d c round every loop of 5 c s in last round.

\_The eight Leaves round this Flower\_--Commence on one of the stitches at the edge of this flower, 25 c s, s c back (this is for the stripe in the centre of leaf), \* 5 c s, miss 3, d c into fourth; repeat from \* five times, which brings it to top stitch of leaf, 6 c s, d c into same stitch, 5 c s, miss 3, d c into fourth six times down the other side of the stripe, draw out the loop on the needle a little, pass the thread under the leaf, 1 d c round the first loop, 5 c s, d c round the next loop, \* 6 c s, d c round the next; repeat from \* four times, which brings it to top loop, 7 c s into same top loop, 6 c s into five more loops down the other side, 5 c s, d c into last loop, pass the thread under the leaf, d c three times round the loop next to stripe, five times round next loop, six times round every loop up to the top, 2 d c, 5 l s, 2 d c round the top loop, 6 d c round every chain of six down the other side, 5 d c round chain of 5, 3 d c round the last loop at bottom of leaf next to the stripe; fasten off. Make another leaf in the same manner at the opposite side of the centre flower, and one at an equal distance between these two; another on the other side to correspond, which will make four leaves, then work four more leaves between these 4, and the eight leaves will be finished.

\_For the rounds of open work proceed thus:\_ Commence on the point of one of the leaves, work 29 c s, d c into point of next leaf; repeat this all round, not making the c s too tight.--

\_2d round\_. D c into every stitch of this round.--

\_3d round\_. 1 l s, \* 3 c s, miss 2, 1 l s into third stitch; repeat from

\*.--

\_4th round\_. D c into every stitch of last round.--

\_5th round\_. 1 l s, \* 3 c s, miss 2, 1 l s into third stitch; repeat

from \*.--

\_6th round\_. D c into every stitch of last round.--

\_7th round\_. 1 l s, 2 c s, miss 2, 1 l s into third; repeat from \* all

round.--

\_8th round\_. D c into every stitch of last round. Work on the inside of

the first round of 29 c s a ring, thus: commence on centre, c s

\_between\_ the leaves, 16 c s, unite on foundation-stitch, d c

twenty-four times round this ring; repeat these rings between every two

leaves, making eight in all.

\_The Leaves on the outside of the open Rounds\_.--

Commence on stitch

opposite to the point of one of the large leaves. 18 c s, 1 l s into

sixth stitch, \* 2 c s, miss 2, 1 l s into third; repeat three times more

from \*. 1 s c into foundation-stitch, then 4 d c round first loop; 1 d c, 2 l s, 1 d c round next three loops, 1 d c, 4 l s, 1 d c round top loop; 1 d c, 2 l s, 1 d c round three loops on the other side of leaf; 4 d c round last loop. Make another leaf in the same manner, beginning at the same foundation-stitch. Fasten off. Then two more leaves exactly the same, opposite the points of all the large centre leaves. Then two more leaves opposite each of the d c rings inside the open rounds (which will be at an equal distance on each side from the others). There will now be thirty-two small leaves, two and two, the upper point of each leaf to be turned outwards, and to be tacked with needle and thread to the point of the next leaf, which it will meet easily. (Care must be taken to refer to the engraving for the manner in which the mat is to be finished, as it will greatly assist the explanations.)

For the small roses between the leaves, which are made separately: 9 c s, unite, 5 c s, 1 long stitch into ring, \* 2 c s, 1 l s; repeat from \* seven times. 2 c s, s c into third stitch of first 5 c s.

2d round. 1 s c round first space, 3 c s, 3 l s, into same space, \* 5 c s, miss 1 space, 4 l s into next space; repeat from \* all round.

Finish with 5 c s, s c into third stitch of 3 c s. Fasten off sixteen roses for the round. Place one of these roses between every pair of the leaves which proceed from the same foundation, and sew it at the edge to the third scallop of the leaves; then commence between the points of the leaves which were sewn together, \* 24 c s, d c into centre of edge of small rose, 24 c s, d c between the points of the leaves; repeat from \* all round, then 26 d c stitches round every 24 chain.

\_Sprigs between the 24 C S\_--18 c s, unite on twelfth. D c round this loop twenty-two times. S c up remaining c s for stalk. Fasten off, leaving an end to sew the sprig on the mat. Turn wrong side up. Commence on fifth stitch from stalk on the \_right-hand side\_ of the flower, \* 10 c s, unite in same stitch. Turn again. Into this circle work 18 d c stitches \*. Turn wrong side up. S c up to top of ring formed by 18 c s; repeat from \* to \* for another ring. Turn wrong side. S c down to fifth stitch from stalk. Repeat another ring, when the work will be on the right side. Bring the cotton to the side of this last ring nearest to stalk. 13 c s, s c into top of last ring. 6 c s, s c into same stitch. 13 c s, s c into foundation close to the lower part of ring. 5 c s, s c into \_foundation-ring,\_ close to centre ring, at the top. 13 c s, s c into top of ring; 6 c s, s c into same stitch; 13 c s, s c into foundation at bottom of ring; 5 c s, s c into foundation at lower part of next ring; 13 c s, s c into top of ring; 6 c s, s c into same stitch; 13 c s, s c into foundation at the other side of ring. Fasten off.

Sixteen of these sprigs are required, and sixteen more small roses. Place one sprig between each of the chains of 24 d c, where they meet at the points of the leaves, and sew them by the thread which was left at the end of the stalk. Confine them to the 24 d c by the lower 13 c s. Place a small rose between each of these sprigs, fastening them together where they meet. The best way is, to cut out a circle in coloured paper, and (after the crochet work is completed) place the mat wrong side up upon it, and fasten the flowers to it and to each other, as it will then be quite flat and smooth.
